SINOTOP

Expert in Outdoor Waterproof Bags

Mission

Enable every outdoor journey to be fearless against wind and rain.

Vision

To become an innovation leader in the outdoor waterproof bag industry.

Values

Customer First · Win-Win Cooperation · Pragmatic Innovation Integrity in Business

使命

让每一次户外出行都无惧风雨

愿景

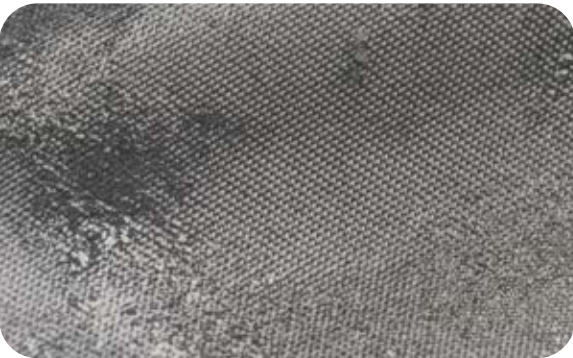

成为户外防水包领域的创新引领者

价值观

客户至上 · 合作共赢 · 务实创新 · 诚信经营

Waterproof Backpacks VS Regular Bags

Standard Backpack

1. Standard nylon or polyester fabric absorbs water easily, offering limited protection for the contents.

2. Stitched zippers are not fully sealed, so rainwater can easily enter through the gaps.

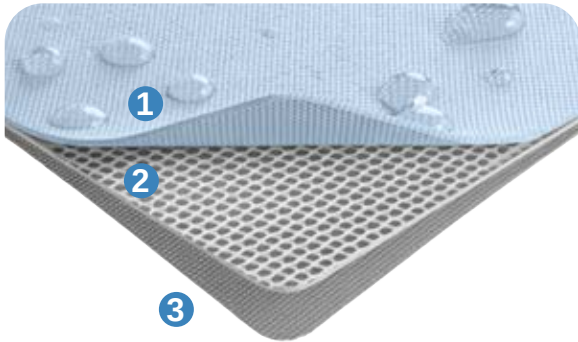

3. Stitched seams create needle holes that allow water to seep into the bag.

4. Gets dirty easily outdoors & tough to clean over time

Waterproof Backpack

IP68

1. **Outer layer:** Blocks waterpenetration.
2. **Middle layer:** Enhances tear resistance.
3. **Base layer:** Stable and durable.

3. Hot-pressed construction eliminates needle holes and reduces leakage risk for better waterproof performance.

2. **1 Main opening:** Airtight waterproof zipper, leakproof up to 30 meters underwater.
2 Front pocket: Standard waterproof zipper for daily splash protection.

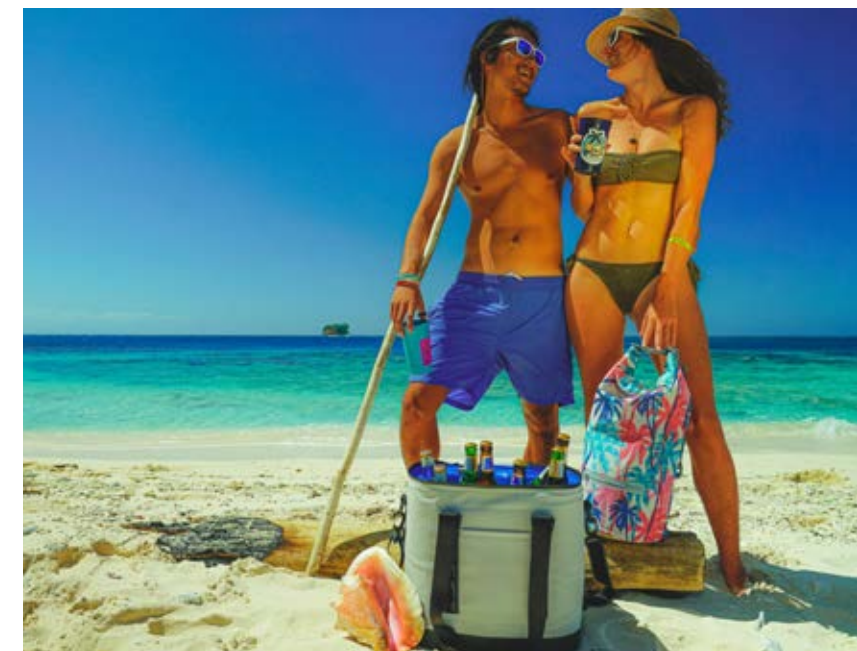

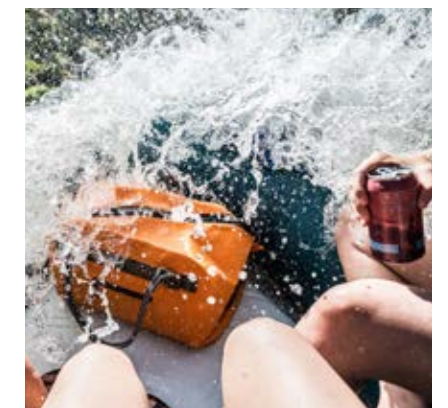

4. Easy to clean with just a quick rinse after outdoor use.

Application Scenarios

For All Water-Based Activities

Seaside

Resists sand and splashes. Keeps essentials dry.

Stand-Up Paddleboarding

Easy to secure, lightweight to carry, floats on water.

Surfing

Secure fit, splash-resistant, keeps essentials safe on the move.

Boating

Leakproof, abrasion-resistant, trip-ready.

Outdoor Camping

Comfortable carry. Moisture protection. Camping-ready.

Motorcycle Travel

Quick-mount design, stable on the bike, all-weather protection for long rides.

Cycling

Multiple attachment options, easy to carry, wind-resistant and burden-free.

Road Trips

Expandable trunk storage, durable and pressure-resistant, ideal for worry-free road trips.

Forest

Abrasion-resistant and branch-proof, stays secure without snagging.

Hunting

Quiet matte finish, MOLLE-ready, built for extended carry.

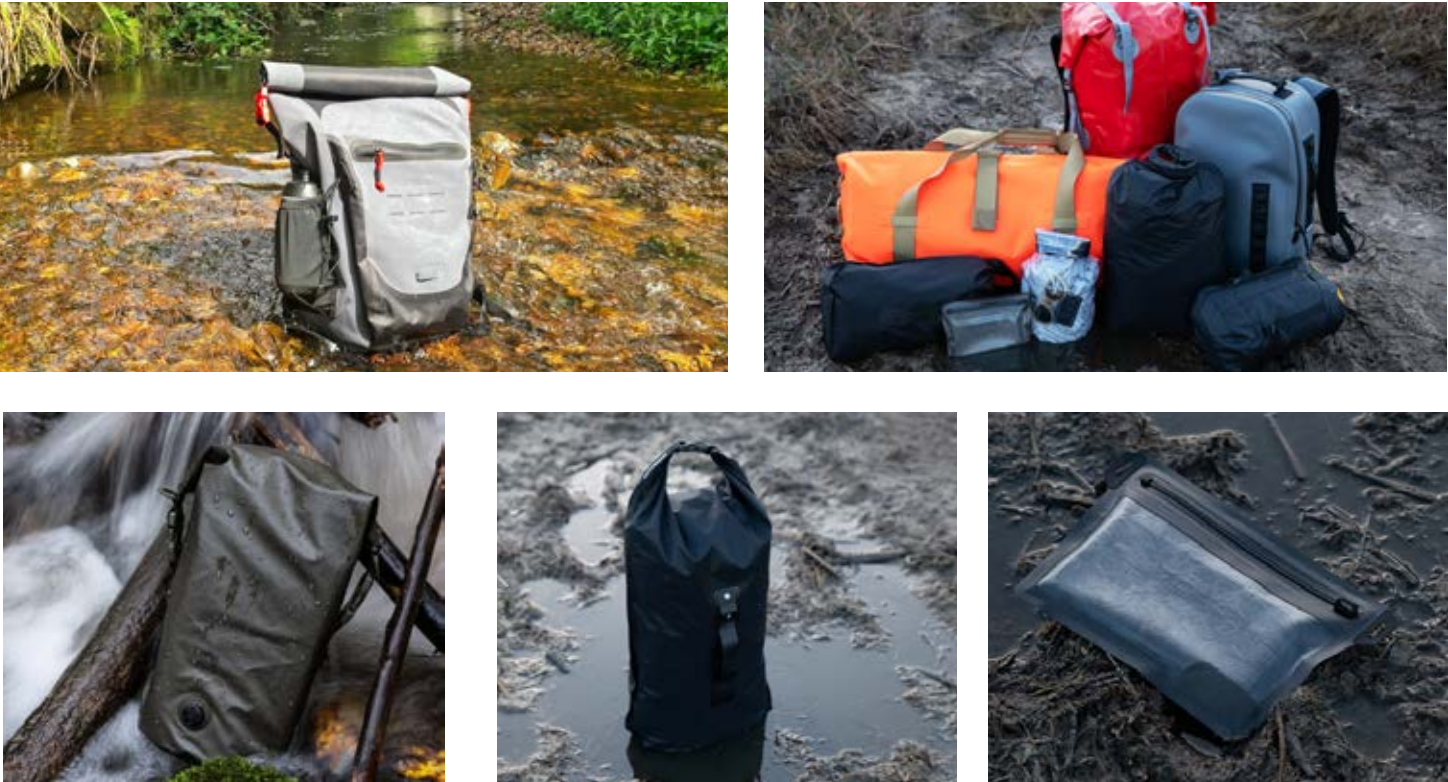

Mountain

Scratch-resistant and impact-resistant, carries smoothly on rugged trails.

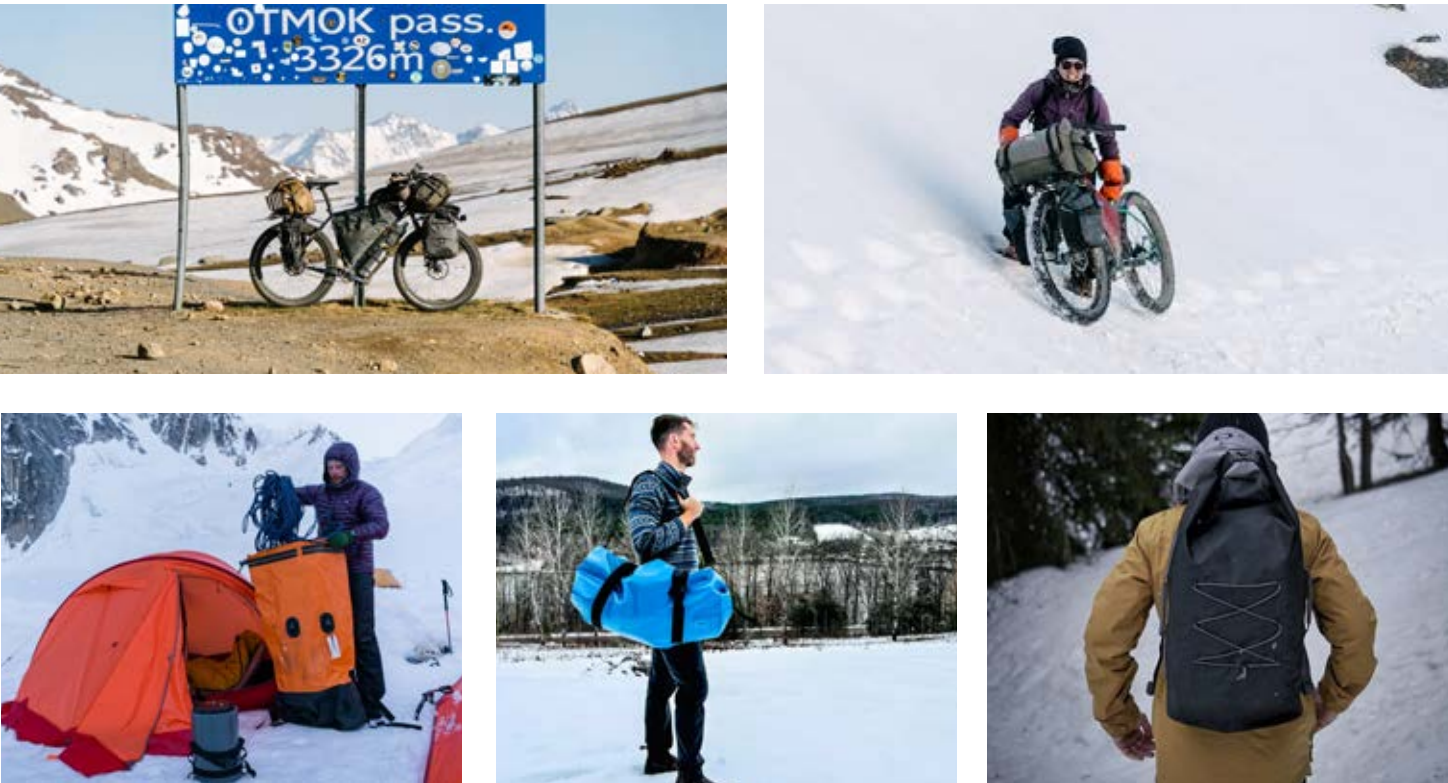

Wetland

Strong protection against mud and moisture, ideal for wet environments.

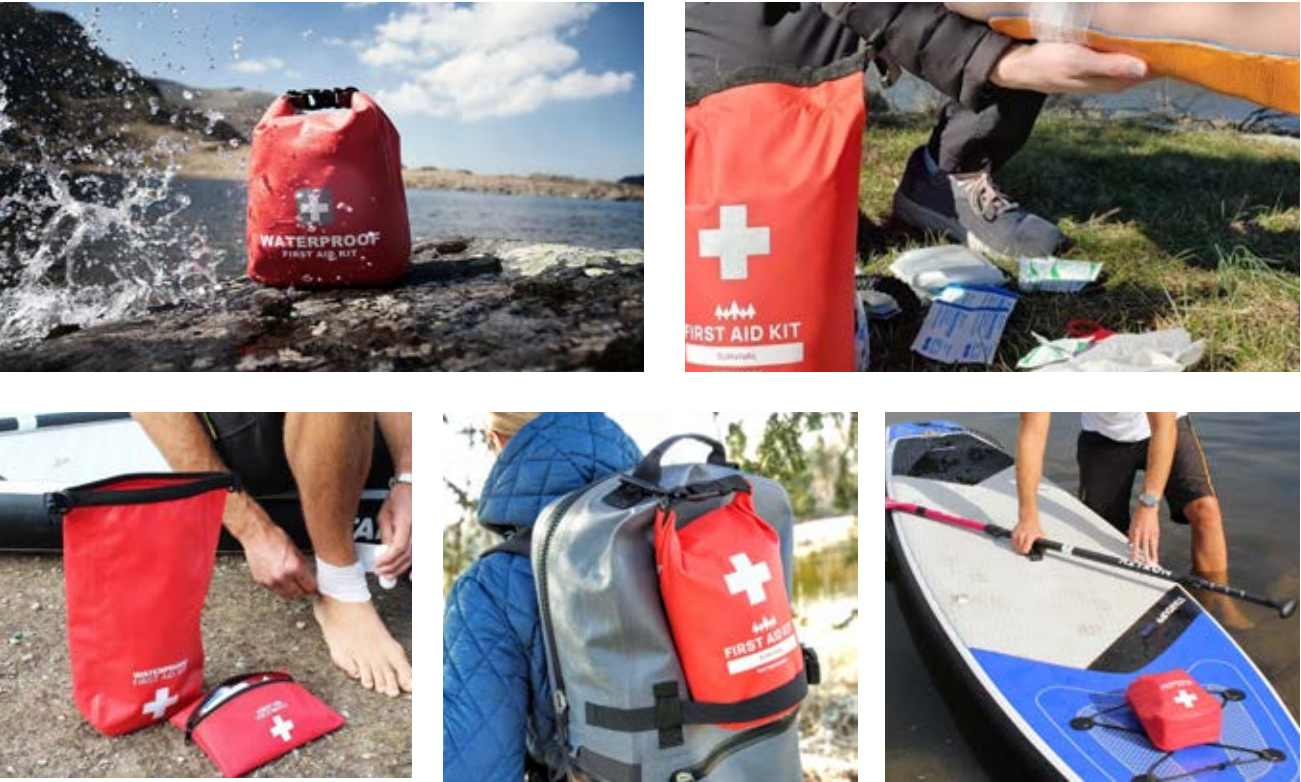

Snowfield

Cold-resistant and moisture-proof, helps keep gear dry in snow.

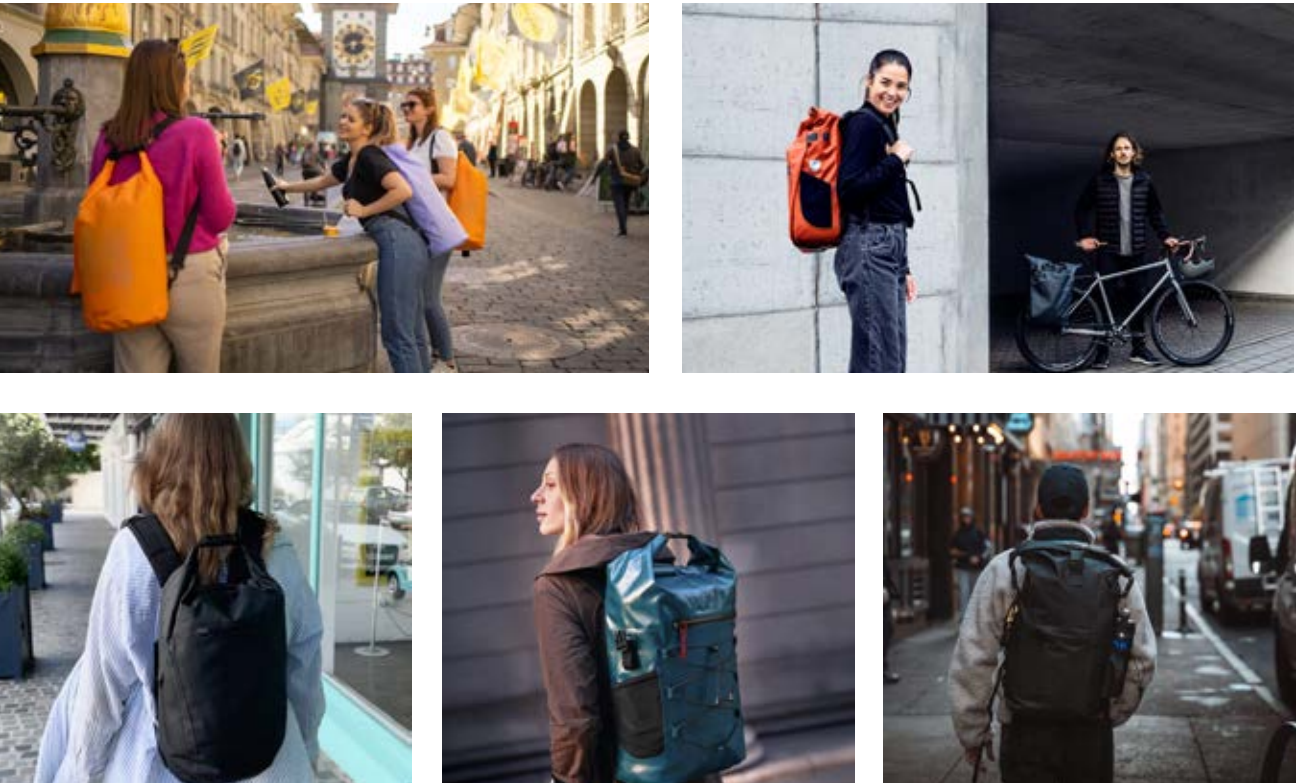

Rescue

Easy to identify and access, keeps first aid gear organized and visible.

Urban Walking

Lightweight and stylish, keeps daily essentials dry and easy to carry.

Swimming

Lightweight, splash-resistant, floatable and fully waterproof.

Fishing

Wading: IPX7 protection, organized storage, easy access to gear.
Sea Fishing: Leakproof, insulated, abrasion-resistant, built for big catches.

Creek Trekking / Exploration

Short-term immersion protection, close-fit carry, easy-access design.

Premium Waterproof Materials

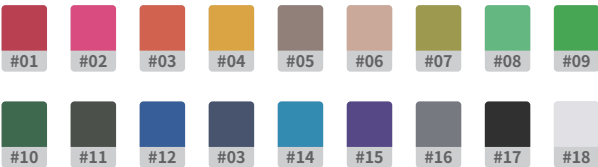

Semi-Transparent Frosted PVC
Matte finish with a subtle frosted texture.Soft haze effect with a lightly textured touch.

Limited tear and abrasion resistance.

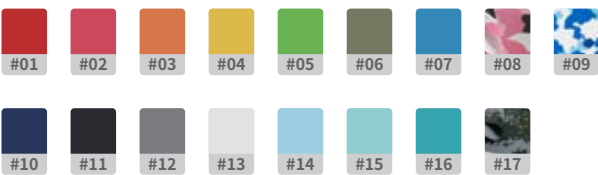

PVC Mesh Fabric
Cost-effective for entry-level and mid-range dry bags.;
Complies with REACH and 7P standards.

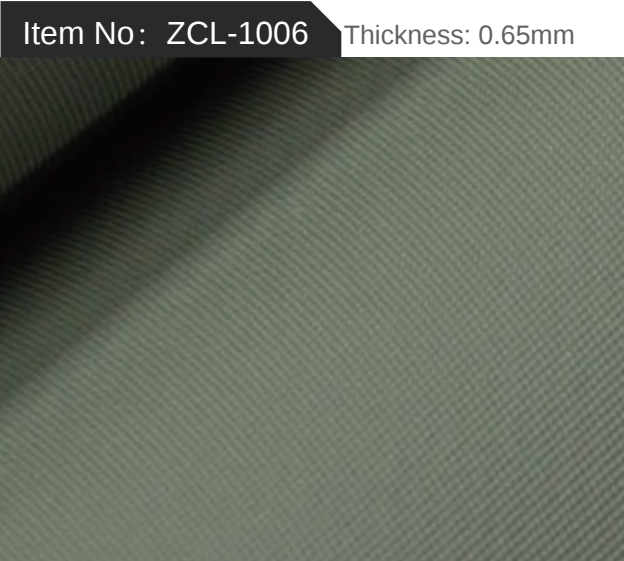

Edges may fray after cutting.;
Crease marks may appear after repeated folding.

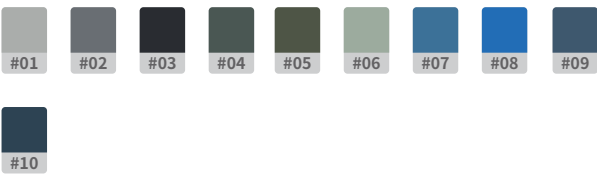

PVC Tarpaulin
Clean edges, no fraying;
Defined texture, dimensional look;
Well-balanced for mid-range dry bags;

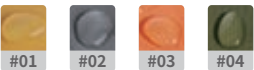

PVC Mesh Fabric
Matte and low-reflective ;
Hides fingerprints and dust;
Soft, flexible, fold-resistant ;

600D Double-Sided TPU
Eco-friendly and non-toxic ;
-20 C -40 C Flexible in low temperatures ;
Lightweight and high-performance

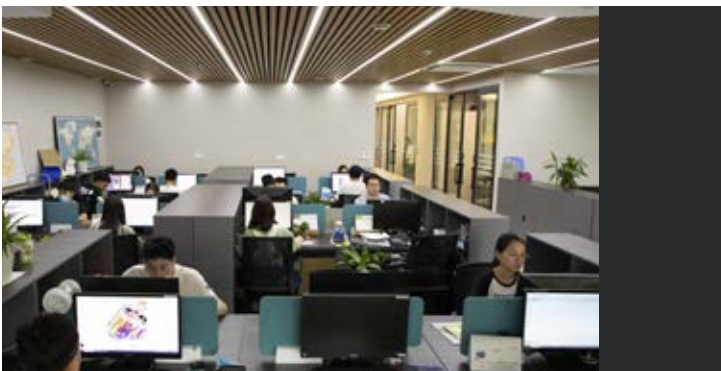

210T Nylon-Look PVC
Lightweight and foldable ;
Soft and thin to the touch ;
Usually made with stitched seams and taped sealing to achieve IPX6 waterproof protection ;

840D Nylon TPU Anti-Slip Fabri
High-density nylon for strong tear resistance ;
Micro-textured surface for enhanced grip ;
Non-sticky and durable for long-term use ;

About Us 关于我们

Floor Area

9500 M²

Yiwu tianmei outdoor products co., ltd., founded in 2009, is an integrated industrial and trading manufacturer specializing in the r&d, production, sales, and service of waterproof bags. located in yiwu, zhejiang, the starting point of the “new silk road,” the company covers 9,500m², employs over 170 staff, operates 7 production lines and more than 120 machines, with a monthly output of around 200,000 pieces. main products include waterproof dry bags, backpacks, duffel bags, travel bags, cooler bags, tote bags, waist bags, sling bags, camping bags, waterproof phone pouches, vehicle bags, and gun cases.

The company has established a strict quality management system and has passed iso9001:2015, bsci and other certifications. It has obtained over 110 patents and was recognized as a national high-tech enterprise from 2018 to 2023. Guided by the philosophy of “building reputation through quality and trust through service,” its customers and distributors now cover more than 70 countries and regions.

Tianmei has also created the “sinotop” brand. Focused on waterproof bag quality and broader application scenarios, sinotop is committed to delivering practical, reliable, and comfortable products through refined design based on user experience and real-world needs.

In-House Manufacturing

With advanced precision cutting and professional printing equipment, we achieve complex branding and structural processing with accuracy. Combined with automated pattern sewing, both reinforced stitching and special detailing for outdoor bags can be produced to a high and consistent standard, meeting diverse custom manufacturing needs worldwide.

International Certifications Compliance

Backed by multiple international standards and third-party testing systems, we maintain strict control over material safety, quality management, and supply chain compliance to ensure market-ready products and reliable cooperation.

■ ■ R&D Team

Global Service Capability & Experience

Reliable support and flexible cooperation for diverse markets.

One-on-One Support 01

From inquiry to delivery, with continuous one-on-one follow-up.

Full Follow-Up 03

Covering development, approval, production, and shipment.

Quick Response 02

Timely updates on product needs, sampling, and orders.

After-Sales 04

Ongoing support and issue follow-up after delivery.

Custom Waterproof Bag Solutions Worldwide

From development to mass production, we offer flexible custom waterproof bag solutions.

Logo Customization

Silk screen, heat transfer, woven labels, and rubber patches.

Material & Color

Custom materials, colors, and finishes for different brand and usage needs.

Structure Customization

Custom options for capacity, pocket layout, back system, and closure design.

Feature Customization

Custom waterproof levels, zipper types, attachment systems, reflective details, and more.

Packaging Customization

Custom hang tags, poly bags, color boxes, manuals, and more.

OEM / ODM

Provide production from sample-based manufacturing to full custom development.
