

1. Shut off power before installation.
2. Fix the mounting strap to ceiling.
3. Insert the main wire and light arm with wires into the base as shown and fix with washers and nut. Connect wires to wires matching their colors. Then, connect the wire bundles with wire connectors with the corresponding main wire.
4. Put on the nut and cover plate and screw in wooden cap tightly.
5. Insert the upper end of light arm and main wire into the top central body and fix with washers and nut. Then, feed the main wire through the side hole of the nut, nut, cover plate, wooden cap, chain connectors, chain and canopy.
6. Fixing the nut, put on the cover plate and screw in the wooden cap securely.
7. Screw the bottom chain connector into the wooden cap and top chain connector into the canopy, fixing the retaining nut.
8. Connect the wires with wire connectors to the corresponding wires in ceiling.
9. Attach the canopy to the mounting strap.
10. Install the sleeves and light bulbs(not included with the light fixture).
11. Turn on the power and test.
