### ATTENTION:

- \* Please charge the product at the environmental temperature between 5°C and 40°C.
- When charging, it is recommended to use a 5V
- USB power adapter. \* After charging, please unplug the power connector.
- \* Please do not charge, discharge or store the product in high temperature environment, otherwise
- it will accelerate the battery aging. Please do not put the battery in car or near power
- sources. After correct charging, if the battery life is getting
- shorter and shorter, it means that the rechargeable battery has reached its effective service life. Please replace the battery at the local maintenance point and properly dispose of the used rechargeable battery according to local regulations.

#### STORAGE PRECAUTIONS:

- \* The product needs to be recharged every three months without being used, so as to avoid battery damage and unusable situations.
- \* Please fully charge the lights and store them in a cool dry place.

#### USING PRECAUTIONS:

\* Please do not throw the product into fire. \* Please do not soak the product in water.

# 1. PACKAGE LIST

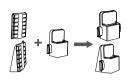

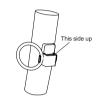

## 2.INSTALLATION

Insert the anti-slip pad into the magnetic bracket as the picture shown below (Flush mounting method and vertical mounting method are both selectable)

Tighten the magnetic bracket to the seatpost with the silicone strap (The round post of 31.8mm pipe diameter is recommendable in this way).

#### Insert the light into the bracket as the picture shown below. The light will be locked into place by the magnetic force.

The installation effect of the flush mounting method

The installation effect of the vertical mounting method

# Warranty Card

- 1. Please contact the wholesaler for customer service. For inherent problems under correct use, we accept a return during seven days since nurchase. Users are allowed to replace a new product of the same model for free during fifteen days since purchase, and package is excluded in the replacement.
- Purchase date is defined in accordance with the invoice or receipt made by wholesaler. 3. Under the following circumstances,
- replacement and warranty are both invalidated, but we offer a paid repair service. (1) All damages caused by subjective factors,
- such as using under abnormal conditions or against the user manual. (2) User's independent repairing and modifying or
- other unauthorized maintenance.
- (3) Damages caused by improper shipping 4. We offer replacement/maintenance service by presenting this card, please show your invoice or receipt when the service is needed.
- 5. Gaciron is irresponsible for any damages caused by the following improper uses. (1) Hidden safety hazards or incidents caused by
- user's improper operation (2) Hidden safety hazards or accidents caused by irresistible factors.
- (3) Damages or accidents or injuries caused by user's independent operation against the manual or, using other materials or accessories on the product which causes malfunction.
- 6. Wherever you purchase this product, you have the total access to equivalent services from the nearest customer service center; if the problem is not solved to your satisfaction, please make a phone call to us or email to our customer service department.
- 7. The company reserves all the right to modify and explain the above terms.

# 3. CHARGING

Uncover the USB-C waterproof silicon plug on the back of the light, then insert the USB-C cable to connect the charging device. The flashing red light indicates that the remaining battery is less than 20% and it needs to be charged in time. Charging: The indicator light flashes in red

Fully Charged: The yellow indicator light is constant on.
