

Installation Guide

Picture 1

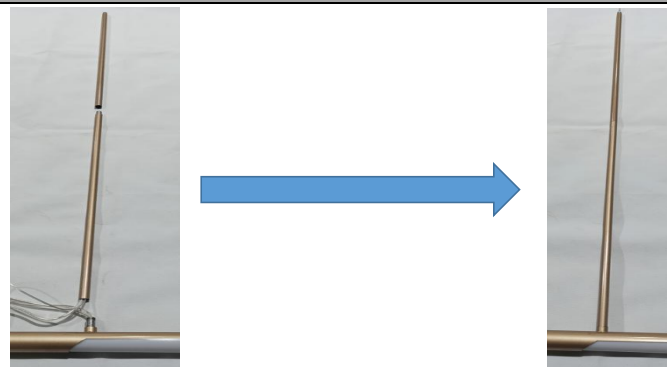

Parts list: The size of K and M is M4×25mm

Picture 2

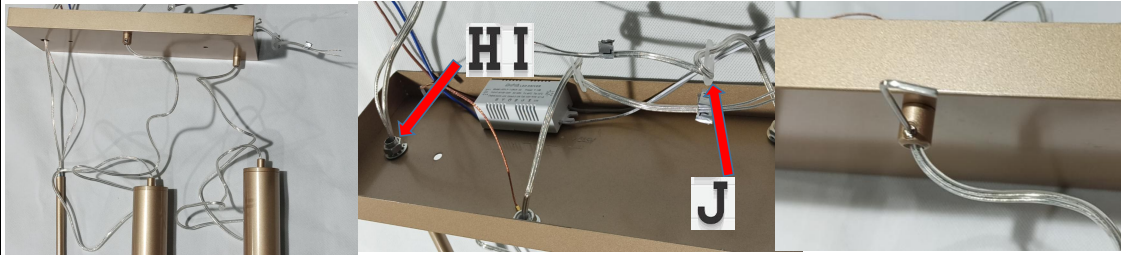

Step 1: First remove the hanging plate from the ceiling plate, and then use L and M to fix the hanging plate on the ceiling.

Picture 3

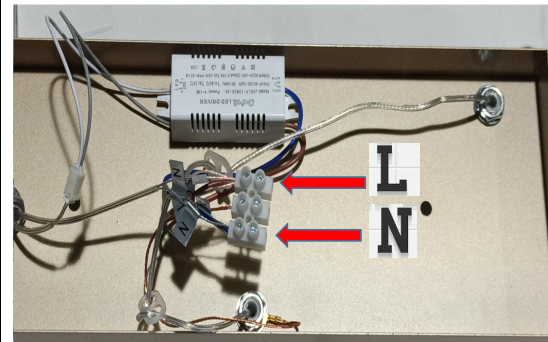

Step 2: Pass B's power cord through G, and twist G to B.

Picture 4

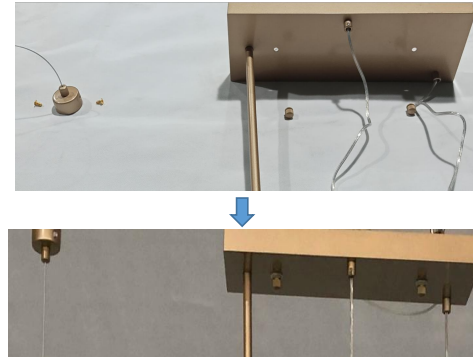

Step 3: First pass the power cords on A and B through C, use H and I to lock C and G together, then pass the wire on A through J, and use O to twist the side screw of the locking piece on C tight.

Picture 5

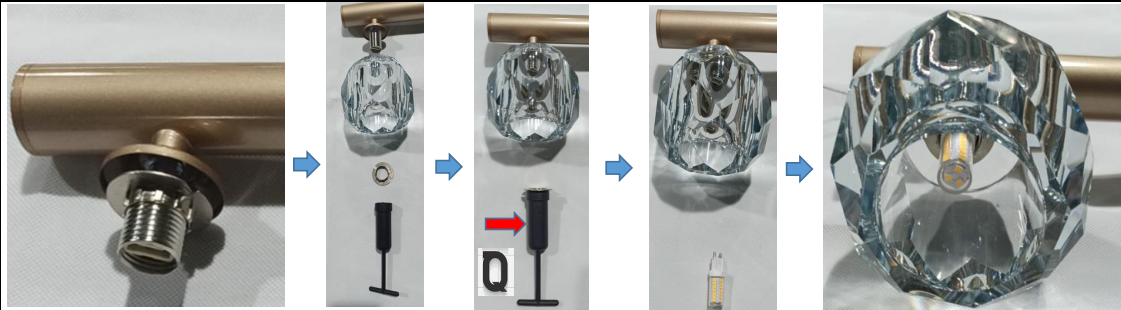

Step 4: Plug the PH terminal pair first, and then connect it to the user's power line. Pay attention to the distinction between the zero and live wires. The red is the live wire, and the blue is the neutral wire (note: the wire of the LED light is connected to the driver)

Picture 6

Step 5: Fix F and C on the ceiling with screws and decorative heads respectively.

Picture 7

Step 6: Fix the lampshade E on B with Q and the lamp holder ring, and then insert the light source D into the lamp holder.

Picture 8

Completion.
