4 CHARGING & BATTERY INSTALLATION

A. USB CHARGING

Charging port under rubber cover

- Open the rubber charging-port cover.
- Connect the included USB charging cable.
- Connect to a 5V USB power source.
- Red: charging. Green: fully charged.

IMPORTANT: Use only the included or a compatible rechargeable battery. Do not charge disposable batteries.

B. RECHARGEABLE BATTERY

Positive (+) end faces the flashlight head

- 1 Unscrew the tail cap.
- 2 Remove any shipping film or insulating tab.
- 3 Insert the included rechargeable battery, positive (+) end first.
- 4 Tighten the tail cap firmly.

5 SAFETY & CARE

- ⚠ Do not look directly into the beam or shine it into anyone's eyes.
- ⚠ Use only compatible batteries and charging accessories.
- ⚠ Keep away from children, heat, flames, and metal objects.
- ⚠ Do not immerse the flashlight in water. Dry it after rain or splashes.
- ⚠ Stop use if the flashlight or battery becomes hot, damaged, or leaks.
- ⚠ Remove the battery before long-term storage and dispose of it properly.

6 TROUBLESHOOTING

- | | |
|---------------------|--|
| ✓ NO POWER | Charge the battery and check polarity. |
| ✓ NOT CHARGING | Check the cable, power source, and charging port. |
| ✓ FLICKERING | Tighten the tail cap and clean battery contacts. |
| ✓ DIM LIGHT | Recharge the battery. |
| ✓ MODE CHANGES | Avoid resting on the tail switch; fully click ON/OFF. |
| ✓ STILL NOT WORKING | Try the second included battery, then contact support. |
