	DURABILITY
	KKVINYL doesn't make a post-installation warranty on the glitter diamond ,5D,6D,7D vinyl (Code: SBM,5D01,6D01,7D) Installation of Glitter diamond vinyl is not recommended for beginners! Even at a professional, expert level, glitter diamond wraps are very difficult and installers make mistakes during install. Make sure you get plenty of extra material when purchasing material for your vehicle. (We offer special size for glitter diamond wraps (code: SBM) 48 " x 60ft/1220mm x18m.
Glitter Diamond Vinyl #SBM	The first thing you have to understand is that this gorgeous, dazzling and glitter diamond encrusted was originally designed for interior decoration only, which means that this material, this design, this diamond encrusted, diamond-like particle decoration is not going to be able to withstand the wind and rain outside. In view of the ever-increasing aesthetic needs of the vehicle wraps industry, we as a manufacturer, in order to respond to market demand, we have improved and updated the design of this material.
	Glitter diamond vinyl wraps (code:SBM)can not be washed with water gun, daily ma
	Due to the particularity of the material of Diamond Encrusted , must not be caught in
	Don't need to worry about the glue, since we're using Henkel solvent-based acrylic adhesive. After you remove it, won't leaving absolutely adhesive residue on the car surface.
Carbon fiber 5D,6D,7D	Not waterproof We recommend manual cleaning with Lint-Free Towel by hand . Please dry it in time after the rain Otherwise, there will be white water mist between the carbon fiber layer and the first layer of bright surface
