### 1. Installation Preparation | Pregătirea instalării | Telepítés elokészítése | Подготовка за инсталация

Before installation, please make sure to:

- Do not connect to the Internet. Official software usage may be blocked when online.
  - Turn off antivirus software (e.g., AVG, McAfee, etc.).
  - Disable Windows Defender.
  - Block VCDS in the Windows Firewall (do *not* turn the firewall off completely).
- 

Înainte de instalare, vă rugăm să:

- Nu conectați computerul la Internet. Software-ul oficial poate fi blocat dacă sunteți online.
  - Dezactivați programele antivirus (ex. AVG, McAfee etc.).
  - Dezactivați Windows Defender.
  - Blocați VCDS în Firewall-ul Windows (nu dezactivați complet firewall-ul).
- 

Telepítés előtt:

- Ne kapcsolja az internetet. Az eredeti szoftver online blokkolódhat.
  - Kapcsolja ki a vírusirtót (például AVG, McAfee).
  - Tiltsa le a Windows Defendert.
  - Blokkolja a VCDS programot a tűzfalban (ne kapcsolja ki teljesen).
- 

Преди инсталация:

- Не свързвайте компютъра с интернет. Официалният софтуер може да бъде блокиран онлайн.
  - Изключете антивирусните програми (напр. AVG, McAfee).
  - Деактивирайте Windows Defender.
  - Блокирайте VCDS във Firewall-а на Windows (без да го изключвате напълно).
-
